SUPPORT YOUR FIREMEN

Throughout the year some 50 men in Hondo dedicated a good portion of their time to the task of protecting the city and immediate area from fire.

That they are successful in achieving much of their goal can be seen in the lower rate home and property owners pay on fire insurance.

This is because there is a Fire Department with good equipment and interested men dedicated to seeing it perform to the highest degree possible. The combination helps set a lower key insurance rate than is enjoyed by many cities.

There are other savings also. For instance, Hondo boasts an all Volunteer Fire Department. Do you know what that means? For one thing you pay lower taxes. If the Fire Department was manned by city personnel, if the City had to purchase and maintain all the equipment, the cost would be extremely high. And that cost would come from the pocketbooks of local residents.

Why doesn't it cost money now, you ask? It does, but not near so much when there are no salaries to pay. Then you will ask where does the money come from?

Come down to the Courthouse Square about 8 p.m. Saturday night and you'll see a main source for the money used to operate the department.

Yep, you guessed it. That's when the big, popular annual Firemen's Dance and Carnival holds forth. People from miles around flock to the event to eat hot dogs, drink soft drinks, play... (I can't mention the name of the game)... show off at the slingshot booth, satisfy their sweet tooth and the cake wheel and listen to the music of Ramon Villa and his Orchestra.

While there Saturday night they will drop a few coins of the realm into the fire department coffer where the money will be put to good use.

Until this year the Department had only one other main source of money. Once a year the secretary mails cards to local and area residents inviting them to contribute to the support of this organization designed to protect the public. Many do send in money.

Yet, it is sad to know that many more never send in a thin dime. They leave it to someone else to put up the money and to the firemen to protect them.

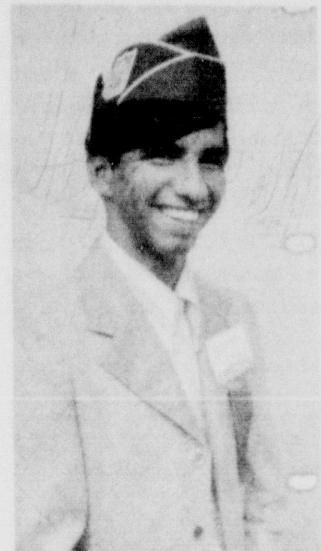

But now the Firemen have another annual project, their Sausage Supper. It was born this year through the necessity of raising additional funds to pay for a new truck. It seems the old one bought in 1942 is on its last legs.

Why do these men give of so much time, money and effort to be in the Department? Perhaps they are nuts. Maybe they like to chase fire engines.

And just maybe you can bet they enjoy doing the job and feel they are accomplishing some good for their community. Oh, it isn't easy. It can be hot. It can be cold. It can be dirty. It can be dangerous. And it can be expensive to them.

That's right, expensive. Most of the firemen are businessmen who depend upon their own efforts to make money. Time is money to them and when they fight fires for

LUPE BARRIENTES has a right to wear a big smile. This past week he was named "Mr. USA GI Forum Youth Chairman" in a national convention in Las Vegas where 26 districts were represented. Lupe, the son of Mrs. Maria Barrientes of Hondo and a senior in Hondo High, was given the state title in July. He has been president of the local GI Youth Forum for two years.

Band boosters to meet

Monday, August 9, is a red letter day for the Hondo Band Boosters.

President Harold Herring has called an important meeting that night at the band hall. "Officers are asked to please come at 7:30 p.m. for a short discussion before the regular meeting at 8 p.m.," he said.

Herring also stressed the fact that plans for the 1971-72 band year will be discussed and decided upon, and urged all members to make every effort to be there.

BIG CROWD

Some 5,000 persons ate barbecue and enjoyed the fun at D'Hanis Holy Cross Church Sunday.

Enjoy Firemen's Dance, Carnival Saturday Nite

Shades of summer, balls of fire and barrels of fun, the annual Firemen's Dance and Carnival is here again!

The shindig kicks off on the Courthouse Square in Hondo around 8 p.m. Saturday (August 7) and all the members of the Hondo Volunteer Fire Department are giving out with promises, promises, promises.

Promises of plenty of food to eat.

Promises of loads of fun and entertainment.

Promises of good music and a lively dance.

If past performances can be used to judge, Saturday night will prove the firemen correct. All of these promises will be fulfilled and an extra one added, the promise of enjoying the fellowship of old and new friends.

Hungry ones will find hot dogs, a cake wheel, sweets and gallons of refreshments to chase them down. All the young ones will have a ball. They'll get a kick out of the fish pond; laugh at the clowns; and stuff themselves with goodies and soft drinks.

Older folks feel younger at the Dance and Carnival for they participate in the sling shot, listen to the music; and while away the time playing the big K game.

Ramon Villa and his Orchestra return for another engagement at the Dance and there is not doubt but that they will prove to be just as popular this time around.

Firemen still have plenty of tickets and are just waiting for anyone who wants to donate \$1.00 per ticket for an excellent cause.

"Just a wonderful rain all over the county" is the way Russell Chapman described the rains which gave Medina County a general 9 inch bath Saturday, Sunday and Monday.

Some of the strong rains and a wind might have done a little damage in some areas but no losses were reported. Myles Weynand says strong winds hit his farm northwest of Hondo Sunday afternoon and

blew down some maize but no loss.

Chapman said he has 6-1/2 inches at his home on Ave. J. "Farmers who planted their maize late in the season will probably make a good crop now if nothing else happens," he said.

Floyd Koch of the Sheriff's office reported no county roads closed for long and only at crossings.

Seco Creek frothed after a 9 inch rain around Utopia sent churning waters through its dry bed and Father Victor Schmidtinsky reported a 15-foot rise near D'Hanis. He also said the Seco prevented the Bonnard Rothes from getting to the Holy Cross Homecoming Sunday.

Vernon Grunewald of the SCS said Yancey reported from 10 to 12 inches. He said

a great many farmers will now plant fall crops of maize and he said that the work of his unit will probably change to building tanks and planting winter grasses. "Several persons have asked about the fish farms," he said. "All tanks and ponds are full and running over."

H. E. Moffield, who lives south on the Yancey road, reported 9.40 inches. He said

a tank he built in 1964 ran over this week for the first time since the year he built it.

Dr. O. B. Taylor of the Taylor-Chapman Service reported "big rains... all creeks running... stock tanks full... chart rains were reported early, consequently complete totals not included... phone call early Tuesday a.m. from Rieber Ranch near Tarpley showed 10-1/2 inches for the "big rain". Baptist Youth Revival begins in Hondo church

Initial service for the 10-day Youth Revival holds forth tonight (Thursday) at the First Baptist Church in Hondo.

Two enthusiastic young evangelistic men are leading the Revival which will be held daily at 7:30 p.m. August 8 through the 15th.

Roy L. Huddleston, Jr. of Fort Worth will fill the pulpit as preacher during the Revival. And the singing will be directed by Larry Collins of Baylor University.

The 28-year-old Huddleston is in his second year at Southwestern Baptist Theological Seminary in Fort Worth. Once he completed seminary he plans to be a pastor or evangelist, with his hopes leaning stronger toward a church evangelist.

Collins is a junior at Baylor and plans to go on from there to obtain a Masters Degree at Southwestern Seminary. The Dallas native plans to serve as a minister of music.

Pick a ticket to fun

Reno Stanga, finance chairman for the giant annual Dance and Carnival to be sponsored by the Hondo Volunteer Fire Department Saturday night, August 7, proves that there are plenty of tickets still available. He holds a fistfull for everyone to pick a tick-

et to fun, food and frolic. A \$1.00 donation will do the trick. "So get yours and come on out Saturday night for the best time of your life," Stanga says. Proceeds from the gala event help operate the department throughout the year.

Young men in County given draft pointers

Selective Service System Executive Secretary Mrs. Dorothy T. Buttles, who manages Pearsall's local board, says the current Congressional impasse over extending the induction authority has created great uncertainty among area draftage men.

Mrs. Buttles continued, "Selective Service Director Curtis Tarr has recently stressed the importance of explaining to our draft-age men the high probability that draft calls will resume in the near future and that the current impasse in the Congress is not likely to affect any registrant's chance of being drafted."

"Our local board has been specifically instructed to continue to register and classify men and to order for preinduction physical examinations those young men who may be needed to fill draft calls in the coming months," Mrs. Buttles said.

Men with lottery numbers through 125 were eligible for induction in June in order to fill draft calls. Since then, the Defense Department has asked Selective Service to draft 16,000 men in July-August. This request is being held by Selective Service headquarters pending final Congressional action on the

draft bill, which is expected within several weeks.

"Those young men with relatively low lottery numbers who are eligible for induction this year, particularly those with numbers below 175--the current processing ceiling--have a very good chance of being processed for induction after draft calls are restored," Mrs. Buttles said.

"Many young men," said Mrs. Buttles, "seem to think that the Selective Service Act has permanently expired and that they probably will never be drafted. Some of them also think that the entire system has stopped. They are wrong since it is only the induction authority that has expired. They, therefore, may be unintentionally breaking the law by failing to register at age 18, by not keeping their local boards informed of their current address, or by failing to report, if ordered, for their preinduction physical examinations."

Mrs. Buttles also stressed that local boards are continuing to consider CO, hardship, and student deferments and to take other classification actions. "Young men who had planned to submit requests for deferments or exemptions are encouraged to do so," Mrs. Buttles said.

"The expiration of the induction authority does not affect our responsibility to classify young men," she added. Mrs. Buttles may be contacted at 315 East San Marcos, the office of Local Board No. 48.

Study traffic

Working on a Safety Merit Badge in Boy Scout Troop 219, Rene Sanches and Craig Heath studied traffic at the corner of Highway 90 and Avenue M. This study was to fulfill a requirement to watch traffic at an intersection for three hours and list unsafe practices viewed. Then they have to explain what would have been the safe practice. Asked if they caught many motorists in driving errors, they said: "We have four pages of them -- with the greatest offense being failure to use turn indicators."

'Once Upon A Mattress' set at Point Theatre

"Once Upon A Mattress" the musical comedy version of the fairy tale about the princess and the pea, which delighted New York theatre-goers for 59 weeks in 1959-60, will be showing at the Point Theatre in Ingram from July 28-August 15.

This is a sophisticated version of the old fable that contains the first full-length musical score by Mary Rodgers, daughter of Richard Rodgers, a set of almost 20 catchy tunes. The off beat lyrics with clever internal rhymes were written by Marshall Barer, who al-

so collaborated with Jay Thompson and Dean Fuller in converting the fairy tale into an unusual satire.

Curtain time is 8:30 p. m. with performances Wednesday through Sunday. Admission price is \$1 for students and \$2 for adults. For reservation call the Hill Country Arts Foundation at 367-5710.

Reunion Held

Approximately 65 descendants attended the first reunion of the Rudolph T. Wurzbach family held at Koenig Park in Castroville on July 18. Following the invocation a buffet-style picnic lunch was enjoyed by all.

Mr. Willie G. Wurzbach was the oldest member attending, the occasion being his 87th birthday. He was honored with a birthday cake and a song.

The youngest member attending was Shelly Searson, daughter of Mr. and Mrs. Glee Searson.

Finally, the good rains came and were gratefully received -- the kind of rain for which the drouth was made. Sunday afternoon, SALLY and I drove to one of the Tarpley Road crossings to "see the creek come down".

Cattle swimming across included some young calves and all seemed very sure of their way for all made it safely and headed home.

Several cars of interested spectators stopped to watch. Among them, BERNARD CASON asked, "What's that stuff? Look, it's wet on both sides and probably clear to the bottom!"

Clear it was not. Wet, yes, and very, very welcome.

Doing his good deed for the day, or perhaps several days last week, was CLYDE, college man son of the CLAUDE SCHUEHLES. He was helping his grandfather, BEN GRAFF, Sr., with some fence mending chores on the ranch.

In the process, Clyde swung a heavy tool too powerfully and clobbered himself on the head. His grandfather promptly brought him back to town for a tetanus shot as a precautionary measure.

Later, his grandmother, PAULA GRAFF, said she was going to the grocery and asked Clyde if she could bring him anything special. Her grandson, still disgusted with himself, said, "Yes, I could use a new head. Get me one, if they're on special today."

When she told me the story, she was looking at a display of heads of red and green cabbage. "For salad," she said, with a laugh.

When I met 5-year old TOBY ALVIZO last week, he told me that he was going to be a lawyer when he grows up "and work in this courthouse." He is the son of the late Toribio Alvizo and Mrs. REUBEN (Dolores) GARZA.

With him and his mother was 15-months old Reuben, Jr. and Toby says, "He is OK." Their daddy works as a glazier with a San Antonio glass firm.

Some benches and desks, splinters and all, from the old Quihi school are among items recently added to our Medina County Museum's treasures.

I am reminded of "certain pronounced educational ideas" which an experienced rural school teacher, whom I succeeded years ago as a "new one with modern ideas" (for that day and age).

The Professor, as he insisted on being called, told me "All it takes to learn anything is to apply the seat of the pants to the school bench and sit there until the head gets the message."

Quihi youngsters must have had a many-splint-ered experience in their day!

FRANCES (Mrs. Bru) MILLER gave me a preview of two valuable books which Bru's aunt, Mrs. MIKE HERWECK, formerly of Hondo and now of Houston, had presented to the Museum.

These are bound copies of a weekly magazine Die Gartenlaube, complete for the years 1882 and 1888. They had belonged to Mrs. Herweck's father, the late Henry Rothe, who was a Medina County pioneer and once possessed a fine library.

The two volumes are beautifully illustrated with fine engravings and printed in German. Two such pictures, in a story about boys, showed a "Zeitungsjunge" (newsboy) and the other was of a boy sound asleep atop a balcony. The title? "Siesta".

ANN-MICHELLE, sparkling-eyed daughter (1-1/2 years old) of RITA and ALBERT VANCE, was holding court at Dan's Drug Fountain recently. With her were her cousins MICHAEL, JOHN and PATTI GIANOTTI of San Antonio.

Graciously Ann-Michelle offered to share her drink and as graciously blew me a kiss and waved 'bye as she departed with her entourage of admiring cousins in tow.

THANK YOU

I do not have the words to express the thoughts that come to my mind when I look at all the lovely cards, notes, the beautiful arrangements of flowers and gifts that I have received both at home and while I was in the Santa Rosa Medical Center.

The deep love and concern that was expressed to Pat and our daughter, Lee Ricketts, when I was so ill gave them comfort and courage.

The prayers that were said, I am sure have brought me this far and it will be just a matter of weeks until I shall be walking better than I have in years. My cup truly "runneth over".

With deepest appreciation,
Mary Jo Patterson

Volunteer Fire Department formed 62 years ago

For some 62 years now, Hondo and area citizens have received protection from fire through the efforts of a group of dedicated men -- members of the Hondo Volunteer Fire Department.

History of the Fire Department recorded in the December 29, 1961 issue of the Anvil Herald gave the following details about the organization of the local fire unit.

"The VFD was organized July 2, 1909. First officers were J. D. Brown, president; S. G. Morgan, secretary; Hugh Woods, treasurer; C. J. Bless, fire chief; Fritz Mardin, inspector; and Frank Cockrell,

assistant inspector.

"The official name selected was the Hondo Volunteer Fire Company No. 1. The city was divided into four wards. A general alarm was to be sounded by 10 short whistles, with one whistle to identify ward 1, two for ward 2, three for ward 3, and four for ward 4.

"Fletcher Davis, C. J. Bless, and Hugh Woods were appointed as a committee to solicit funds.

"The original fire wagon was made by Jack Holloway and Walter Mask and was delivered approximately six months after the VFD organized.

"According to an Anvil Herald description of the hook and ladder wagon in 1910, "It consists of a series of ladders sufficient to mount the top of any building in town, a pair of hooks, a series of chemical fire extinguishers, water buckets, axes, picks, crowbars, etc. All is loaded on the frame of a light Studebaker wagon so arranged as to be pulled by hand wherever it is wanted.

"Fletcher Davis was elected president in August 1911. One of the standing rules required members absent for two meetings to pay fines of 10 cents per meeting "or their names were turned into the

Road Overseer for road service duty the VFD minutes revealed.

Following are excerpts from the VFD records:

"W. F. Miller was appointed to shake up the soda in the chemical engine. (June 10, 1912)

"The secretary was fined 50 cents for losing the membership list. (Nov. 8, 1915)

"Extinguished fire at Farmer's Union Gin. (August 14, 1915)

"Decided to stir up interest to buy a Ford truck for chemical engine. (December 11, 1916)

"Decided to sound the fire siren every Wednesday night at 7:30, notice to be put in

the Anvil Herald. (March 11, 1925)

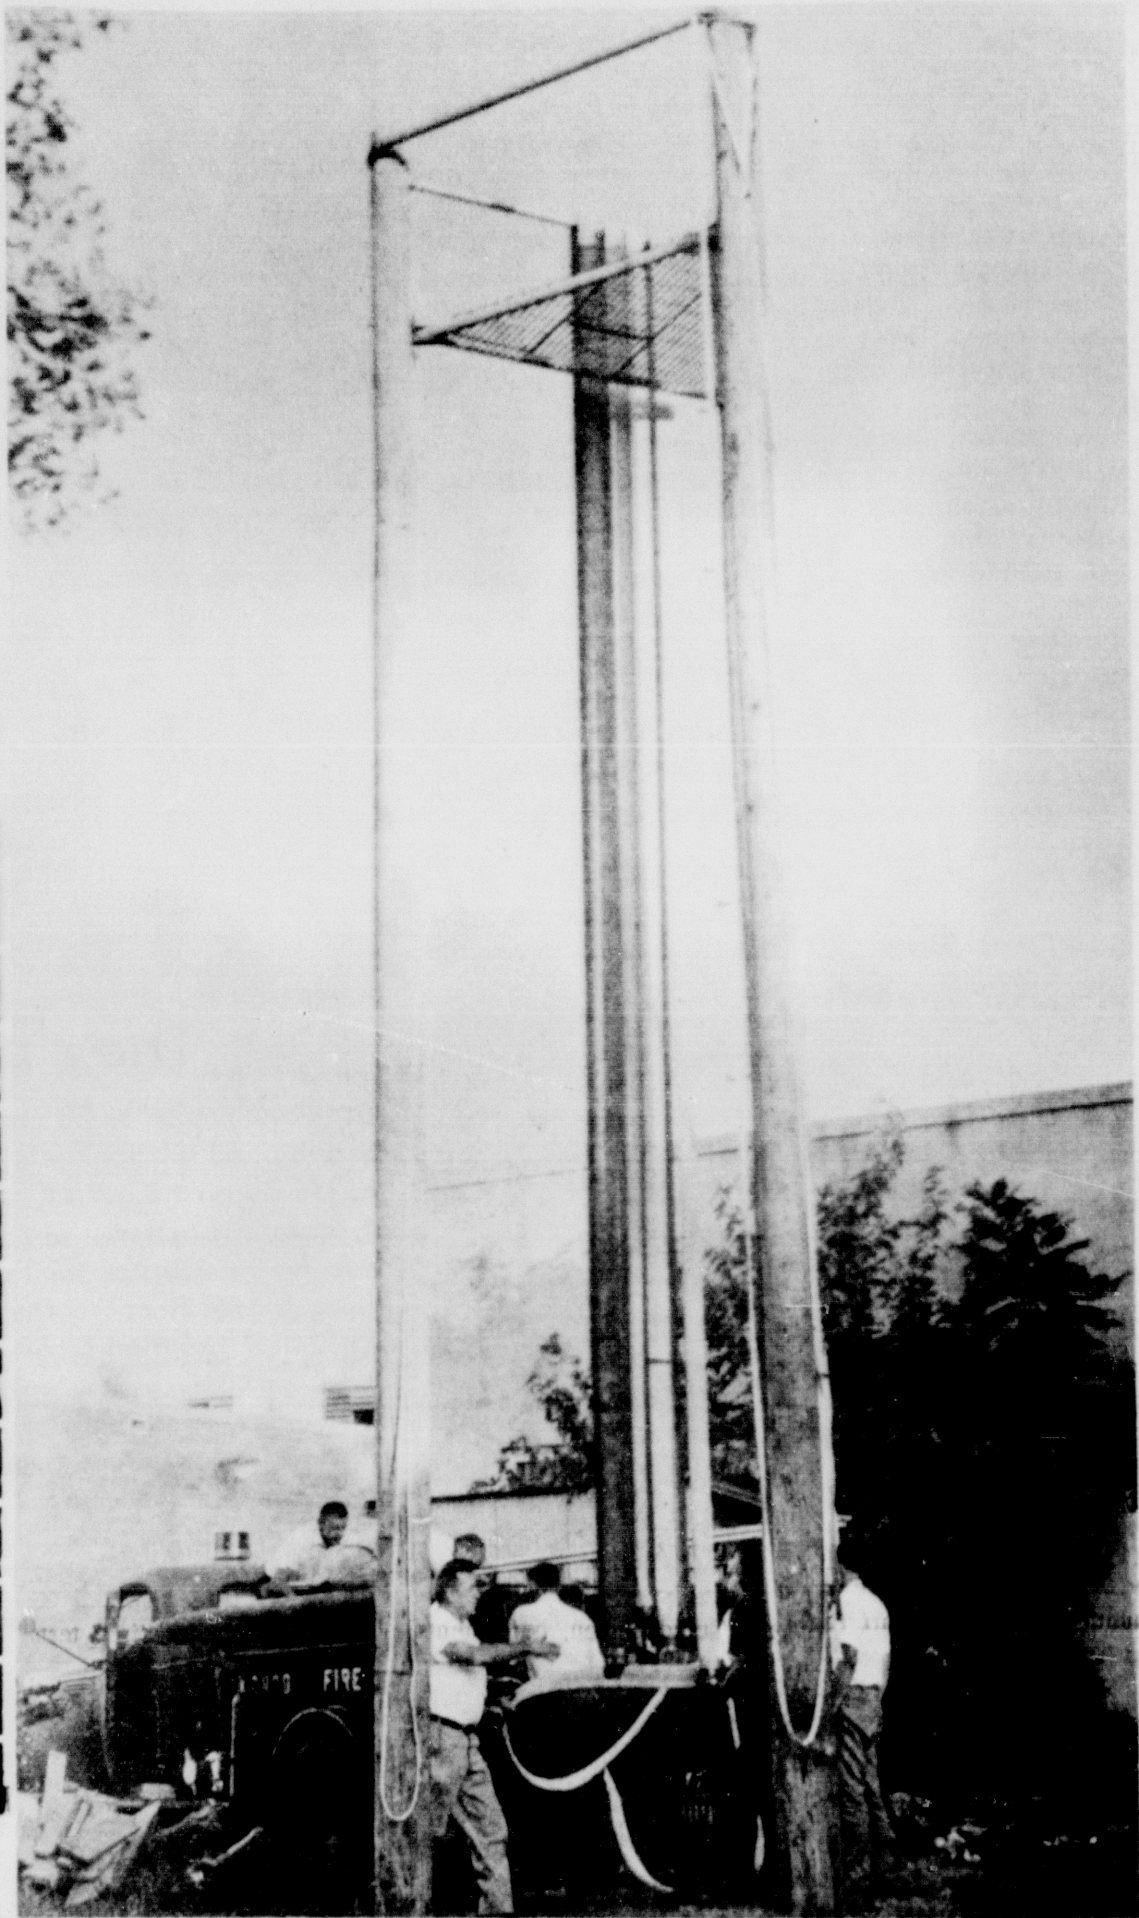

"Decided to buy lot where firehouse is on for \$1,400. (October 6, 1927)"

Hot, dry weather bad for firemen

There is no doubt but that summer puts the heat on the Hondo Volunteer Fire Department.

And this year the lack of rain over a long period has made the work even longer and hotter and firemen have answered more calls this year than in a long time.

Overall Hondo Firemen will answer an average of more than 10 calls per month. Some 90 percent of them will be grass fires, and they prove more expensive to the department since they are harder on the equipment.

Hats Off
To the
Hondo
Volunteer
Fire Dept.

DEPARTMENT HAD FINE BEGINNING

The Hondo Volunteer Fire Department got off to an auspicious start back in 1910, according to a story in the December 29, 1961 issue of the Anvil Herald.

Quoting a January 20, 1910 story from the Anvil Herald,

signed to be worn in this way. Boys hair will be expected to be well groomed. It will not extend below the eyebrows in front and will not cover the ears nor extend below the collar.

Girls will be permitted to wear matched pantsuits with the top to be of hip length. Blue jeans or slacks will not be permitted for girls. Unusually short skirts will also not be permitted.

You are reminded of the announcement on required immunizations which ran in the Anvil Herald July 15.

The regular meeting of the Board of Trustees has been changed from the second Monday of each month to the second Tuesday of each month.

These meetings are held in the Superintendent's Office building at 7:30 p.m. The next meeting is on August 10, at which time the budget and tax rate for the coming year will be determined.

the 1961 article stated: "Holloway Bros. have finished a hook and ladder wagon for the Hondo Fire Department that will prove an effective fire fighting machine in case it is ever needed."

And needed it was, as the 1961 story continued:

"It wasn't many weeks before the shiny new wagon was given a workout. The first fire was at the Joe Fohn outhouse, which according to the official minutes of the Hondo VFD was "was about turned out" when the alarm was turned in. Both small and large extinguishers were used."

Firemen meet

every Thursday

Hondo Volunteer Fire Department members meet every Thursday night.

These meetings include: first Thursday, business meeting; second Thursday, practice; third Thursday, amusement night; fourth Thursday, practice. All fifth Thursdays are used for practice.

Four units

help protect
against fires

To perform the work of providing Hondo and its surrounding area protection against fire losses the Hondo Volunteer Fire Department has four units.

These units include: two pumpers, one ladder truck and one grass fire truck.

Three of the trucks are equipped to carry water and can be used anywhere. The other unit operates as a pump-

er only and can be used only in town.

The Department needs an additional rural truck with which to fight grass fires. In case of emergency members can use the truck at the Air-base. This truck belongs to the City of Hondo.

Recently the Department gave one of its old grass fire trucks to the Volunteer Fire Department at Yancey.

Waiting list

new firemen

The Hondo Volunteer Fire Department is comprised of 50 volunteer firemen.

There is a waiting list for 10 men which is full now. Men must be voted to the waiting list, and once on the list must wait until someone retires or resigns. Then they must receive a two-thirds majority member vote to become a member.

More about . . .

Continued from page 1

hours during the time when they could be producing, then they are losing money.

But it is doubtful that you could talk any of them into leaving the Department until they consider it's time to step aside.

So the next time you want to shoot flak at a fireman for any reason, stop and tell yourself to remember: he is putting money in your pockets through lower insurance rates; he is saving you taxes; and the next fire he fights could just as well be your home or business.

If you appreciate the work the firemen are doing and you want them to be able to continue their excellent job, then head for the Courthouse Square Saturday night and have a good time. And while you are there part with a few shekles.

Or better still write out a contribution, take it up to one of the firemen and tell him "thanks" for the job he is doing.

Many merchants and individuals have said their "Thanks" in this issue of the Anvil Herald. Their messages and stories on the Hondo Volunteer Fire Department fill four pages this week. We appreciate these people using the pages of our newspaper to express gratitude to the men of the Fire Department and at the same time urge all citizens to come out Saturday night and put their support behind the unit.

ADDITIONAL HOURS

John Wentz tells me the Medina County Museum will be available to the public more starting this weekend.

It will now be open Thursday and Friday in addition to the regular Saturday and Sunday times. Both new days will open the Museum from 10 a.m. to 12 noon and from 1-9 p.m. Saturday and Sunday will remain the same.

Have you been out? Why not go this weekend. And while you are there treat yourself (and your friends and relatives) to a historical gift. Buy a Museum plate. Or you can get as many historical sketch sets as you want for only \$1.00 per set.

mail out cards giving residents the opportunity to contribute to the task of protecting their homes and businesses.

"This year the need for money is greater," Chairman Stanga pointed out. "We are in the process of purchasing a new truck to replace one bought in 1942, and for that we must raise extra money. We added to the fund with our recent Sausage Supper, and we feel confident the public will come out in droves Saturday night to buy tickets, eat, drink, have fun, dance and thoroughly enjoy our annual Firemen's

Dance and Carnival."

Stanga also passed on this reminder: "Remember, you will never know what potential surprises are in store for you unless you read that ticket you buy."

Dance, Carnival provides Department money source

Every organization must have money to operate, and the Hondo Volunteer Fire Department is no exception.

The main money-making event sponsored by the Fire Department is the annual Dance and Carnival.

This gala event, which comes off Saturday night

August 7 on the Courthouse Square in Hondo, features fun, dancing, eating and plenty of good music.

Tickets are still available and any member of the Fire Department will be glad to let anyone have them at only \$1.00 donation per ticket.

The Department does use one other method to raise

funds. Each year cards are mailed to all city and local rural area residents asking them to support the Department.

And this summer the Department sponsored what is to become an annual Sausage Supper to help raise funds to pay for a new fire truck.

FASLER REUNION

will be held on
Sunday, August 8
Hondo City Park.

Each family will bring a picnic lunch.

Mrs. Charles Zazzera, Jerome, Michael and Stephen arrived Sunday on Braniff from Carbondale, Pa. for a month's visit with her parents and sisters, Mr. and Mrs. Walter Balzen, Mr. and Mrs. Benny DeJoimo and Mr. and Mrs. John Walker. She will be joined later in the month by her husband, daughter, Bernadette, and Bernadette's fiancé, Lennie Salko. Mr. and Mrs. Zazzera will then fly to Hawaii for a week in observance of their 25th wedding anniversary.

Notice to Long Distance Telephone Users

Effective September 1, the charges for long distance calls within the State of Texas will be changed as follows:

- Rates will be reduced on most station-to-station calls dialed direct, without any operator assistance.
- New one-minute initial period calls will be introduced, at low night rates, for station-to-station calls dialed direct without operator assistance between 11 p.m. and 8 a.m.* This will make it possible to call anywhere in Texas for 22¢ or less.
- Time periods when the various customer dialed rates are effective will be the same as those for interstate calls.
- Rates will be increased on all person-to-person and station-to-station calls requiring operator assistance in any way, except as noted below.*

*Where direct dialing is not available, the customer dialed rate will be charged for station-to-station calls from non-coin phones, on which the caller furnishes the area code and number, and the call is charged to the telephone from which it is made.

Win trophies

Another successful Summer Recreational program came to a close last week and Director Richard Adams said this year "was better than any we have had." Throughout the seven week program youngsters enjoyed sports and handicraft in an average daily attendance of 99. "This marked the largest attendance ever," Adams said. Competition was so keen

that in the 12-14 age girls group a runoff had to be held between Mundy Arcos and Lucy Garcia. Lucy won. Trophy winners pictured here include: Kneeling -- Elma Molina and Freddy Knowles; Center -- Rosemary Rios; Back -- Lucy Garcia and Bobby Rios. Winner Wayne Cox was not present for the picture. Irene Braden Hoadley Wins Press Award

Mrs. Irene Braden Hoadley has been selected as the winner of the 1970 Scarecrow Press Award of the American Library Association.

This award is made to an American librarian in recog-

nition of the outstanding contribution to library literature. The award is for Mrs. Hoadley's book "The Undergraduate Library".

The award was made at the Annual Conference of the

American Library Association on June 25 in Dallas. The Undergraduate Library was chosen for its potential impact on the profession and for other considerations. The book provides a comprehensive survey and analysis of this most problematic academic phenomenon. The work has also given direction in serving a large complex group whose needs, at one time or another, cut across the total library community.

Irene is the daughter of the Andrew Bradens and they were present for the award. Also, the C. O. Hoppersteads of Irving were present.

**How's this
for age?**

No woman would admit it so the jawbone of a Pliocene Rhinoceros, over a million years old, which will be on display at the Medina County Museum on formal dedication day, Sunday, Aug. 15, probably belonged to a gentleman Pliocene Rhinoceros.

The original, now on display in the Texas Memorial Museum, University of Texas, Austin, has attracted the interest of visiting geologists, scientists and anthropologists.

Owner of the treasure is Mrs. Olga Kinnard of Austin, whose family ranch is in the Big Wells area. She is a former classmate of Marvin Schweers and it is through his interest in the Museum that she is placing a replica of the ancient jawbone on loan to the Museum here.

Many other attractions, donated or on permanent loan, will be among the exhibits which have created growing interest since the Museum opened its doors to the public May 1.

Announcement of the Sunday afternoon program will appear in next week's Anvil Herald.

WE NEED A HOME

BY PATRICIA LAWRENCE,
Regional Adoption Supervisor,
Texas Department of Public Welfare

QUESTION:

Who can adopt a child?
What are the qualifications?

ANSWER:

The State Department of Public Welfare looks mainly for warm and well-adjusted parents with the ability to meet a child's needs. Age and health are important only in making sure the parents will be strong enough to raise the child to adulthood. But no other requirements as to income, church membership, neighborhood, home ownership, or the number of children already in the family are set. Each situation is considered in a flexible manner to determine if the family can provide opportunities for the child to have a normal and healthy life.

Currently, the State Welfare has only school-age Mexican-American and Black children for adoption. For literature and more information, call 426-3949 at Hondo.

QUESTION:

Who can be a foster parent? What does it take to be licensed for foster care?

ANSWER:

Requirements are similar to those for becoming adoptive parents, except that foster care is usually short-term, temporary care of children. It is more important for foster parents to be able to give much time and affection to children because many of them have special problems. These children need more love and help than an average child.

In addition, minimum state requirements for housing and health standards must be met in order to be licensed for foster care. There is a real need for foster homes for pre-teen and teen-age children at present. More information can be obtained by calling 426-3949 at Hondo.

Thus, the continuation of these reading programs will help the students to improve or extend their reading skills so they will be more effective in their classes and in their out-of-school reading. There are at least four reasons why people today need reading: for personal, vocational, educational and recreational use.

Welcome to the library -- hours are 11:30 a.m. to 5:30 p.m. Monday through Friday. There is plenty of excellent reading materials, magazines, (medical or otherwise), pamphlets, etc. available. Just drop in and see what "goodies" we do have.

Thanks!

Students honored at Denton

DENTON--Names of students at the Texas Woman's University who achieved high scholastic averages during the spring semester have been announced by Dr. Leslie R. Kreps, vice-president for academic affairs.

Students earning a 3.0 average are on the all "A" list. Those earning 2.3 or better average are placed on the Special Honor Roll.

The list included Delma Dominguez of 1504 Avenue G, Hondo, a senior Home Economics major who was named on the all "A" list; and Deborah Biediger of LaCoste, a sophomore Medical Technology major.

Land Bank loans grow

Area farmers and ranchers borrowed more than \$7-1/2 million from Uvalde Production Credit Association during the first six months of 1971, according to N. B. Willey, president.

This figure represents more than a \$2 million increase over the same period last year. Texas' 34 Production Credit Associations loaned more than \$448 million the first half of 1971, an increase of \$33 million over the same period last year.

Uvalde PCA, with offices in Hondo and Uvalde, makes agricultural loans in Bandera, Edwards, Kerr, Kinney, Medina, Real, Uvalde and Val Verde Counties.
